Strategies

- #1 - Facilitate and coordinate Gulf-wide sustainability projects by engaging individual group members
- #2 - Build an internet-based geospatial regional sustainability atlas that supports base mapping, coordinated data collection, sharing of information and informed decision-making
- #3 - In a coordinating role, assist partner organizations with building capacity to affect sustainable change in the ecosystem and the communities in the Southern Gulf of St. Lawrence region.
- #4 - As an Educator and Facilitator, create a collaborative environment that brings together communities, business, government & experts to move the sustainability agenda forward
- #5 - Internal capacity-building

Mandates

The Coalition will provide services to:

- i - Facilitate communications, networking and information sharing;
- ii - Organize and/or facilitate meetings, workshops, forums or working groups;
- iii - Monitor the progress of implemented strategies, policies and regulations;
- iv - Assist communities to build their capacity for achieving their sustainability goals;
- v - Facilitate access to expertise in the social, economic and environmental/scientific disciplines;
- vi - Promote awareness and education on sustainability as a way of life.

Goals

- a. To organize or participate in sustainability projects designed to:
 - Preserve and protect flora and fauna;
 - Preserve, protect and restore rivers;
 - Reduce energy consumption;
 - Identify solutions for climate change;
 - Understand the effects of coastal erosion and develop adaptation strategies.
- b. To educate and increase public understanding of sustainability and its importance through workshops, conferences and meetings; and by collecting and disseminating information.
- c. To support opportunities for research relating to sustainability and to disseminate the results of such research.
